If conditions change, fire and law enforcement officials will make immediate notification. *Preservation of life remains the number one priority.*
- As a result of the lighting activity that occurred late Monday and early Tuesday morning, there were seventeen additional fires. Out of those seventeen fires, three were significant; The Webb Fire located in the Webb Hollow Cohasset area, the Chico Fire located south of Soda Springs off of Highway 32 and the Pine Fire located northeast of the Chico. They have all been contained. Eight of the seventeen fires were contained to ¼ of an acre or less. Five of the fires are in remote locations and fire crews are in the process of gaining access to those fires.
- For residents of the Berry Creek Area, CALFIRE wants residents to be aware that they will be seeing an increase of fire resources in their area. Additional resources are being sent to the area as part of a contingency plan if weather conditions change, which could affect firefighting efforts.
